Scribner's Magazine for November contains a third African article—a valuable addition to the notable papers of Professor Henry Drummond and Joseph Thomas; a discussion of some startling problems in International Law affecting the United States in the event of another European war; the description of an old Spanish university by a well-known novelist; an explanation of the relation of electricity to health by a high medical authority; an army surgeon's account of the modern Sanitary Corps which relieves the sick and wounded; and interesting essays, fiction, and poems. Most of the articles are richly illustrated.

### Surprising His Palate.

"Speaking about stimulants," said Benjamin F. Hitchcock, the music publisher, "reminds me of a curious habit of Fernando Wood, once mayor of this city. Some time in the '30s he addressed a literary society of which I was a member, in the old Broadway tabernacle, which was then situated on Broadway near Lispenard street. Mr. Wood talked about Alexander Hamilton, and as it was my duty on behalf of the society to thank him for his kindness in addressing us, I sat on the platform. Upon the table beside the speaker stood a pitcher and two tumblers. At frequent intervals during his talk Mr. Wood poured a little of the contents of the pitcher into the tumbler and tossed it off. I noticed that after each drink Mr. Wood became more animated, his periods were more glowing, his manner more assured.

As the time drew near for me to make the speech of acknowledgment I became very thirsty. My tongue clove to the roof of my mouth. I stood it as long as I could, and then, fearing that I should be unable to talk when my turn came, I boldly stepped up beside the speaker, poured a tumbler three-quarters full of the liquid, raised it to my lips, and—astounded my palate. Half of the contents of the glass had gone down the little red lane before my palate telegraphed to my brain that something was wrong. However, I finished the glass and sat down. Then I felt an insidious influence stealing along my blood and pulsing in my brain. My courage, which had become weakened, now was ended with a new backbone. I could have faced a Numidian lion. I have had considerable experience as an orator since then, but never have I equaled that attempt. The liquid in the pitcher was gin."—New York Evening Sun.

### The Lady of the Lamb.

This was a festival peculiar to an ancient English town and occurred in June, on the first Monday after Whit Sunday. A fat lamb was provided and at a given signal, with scores of lookers on to cheer, no doubt, the maidens of the town, having had their thumbs tied behind them, started in full chase after the harmless creature. Well frightened little woolly coat must have been at such unusual merriment and with such a bevy of swift footed hunters after him. The damsel that with her mouth did catch and hold the lamb was declared "Lady of the Lamb." After it was dressed it was borne aloft on a long pole to the public green and close behind followed the fair prize winner, attended by her companions in the race, while a band of music kept beside them. The next day came the grand feast, presided over by the "Lady of the Banquet," who "with great decorum and rare show of courtesy and with friendliest words pressed upon her guests her goodly pleasures of the table."—Harper's Bazar.

### Michigan State Sunday School Association.

The Michigan State Sunday School Association, whose pleasant and profitable sessions at East Saginaw last winter are recalled by hundreds of Sunday School workers, is planning for another large and enthusiastic gathering at Grand Rapids, Dec. 3, 4 and 5. It is confidently expected that Brethren Jacobs and Reynolds, of Illinois, will be present to aid by their wise counsel and stimulating addresses, and also that brother E. O. Excell, of Chicago, will lead the singing, while some of the best talent of our own State will be called into requisition. Our motto for the December meeting:

A Large Gathering; Interesting Sessions; the Projection of Broad Plans of Work, and Entire Dependence on the Holy Spirit.

Further particulars respecting the coming meeting and Programs will be furnished the public in a few weeks.

The following would indicate that there is still hope for the paralyzed. Frank Cornelius, Purcell, Indian Ter., says: "I induced Mr. Pinson, whose wife had paralysis in the face, to try a bottle of Chamberlain's Pain Balm. To their great surprise before the bottle had all been used she was a great deal better. Her face had been drawn to one side, but the Pain Balm relieved all pain and soreness, and the mouth assumed its natural shape." It is also unequalled for rheumatism, lame back, sprains, swellings and lameness. 50 cent bottles for sale by all druggists. [Oct. 29th]

### Pleasant Words.

We visited the NORTHERNER office this week and found A. C.'s new partner, Hon. C. L. Eaton firmly established in the editorial chair and apparently as much at home as though to the manner born. The office has been lately stocked with new type and the proprietors are busy completing arrangements for the reception of the *Grange Visitor* soon to be printed in the office. With two such enterprising men at the helm as Messrs. Martin & Eaton, each specially suited to the work assigned them, the boom that the NORTHERNER has been experiencing since it was "purified by fire," ought to continue with accumulated force.—Hartford Day Spring.

In this season of the year people can not be too careful about keeping their bowels regular. Bilious and malarial diseases are often brought on by allowing the bowels to become torpid.
